**SELLING OVER 60  
YEARLING BLACK ANGUS BULLS**

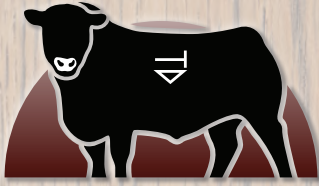

# Welcome!

**Thank you for joining us for our 2023 sale and for taking the time to read this first page. Our operation remains the same. To raise functional cattle that excel from birth to weaning. We want cattle that have great carcass merit that perform well in the feedlot all while retaining a moderate size and birth weight. We are happy to say that our bulls do all this on grass and mama's milk with no creep feed. We start them on a high roughage ration immediately after weaning to ensure they develop properly all while ensuring good growth, foot development and fertility. All bulls will be fertility tested and have a full soundness exam by sale day. We work closely with our veterinarian team to ensure that you get what you pay for. We've added a few new sires this year. We choose sires that meet our criteria with body style, performance and maternal backing, not by popularity. We guarantee our bulls for the first breeding season. You can purchase our bulls with confidence, knowing that we are honest about all weights and information from birth to weaning. Videos will be on our website and Facebook around the first of February and all carcass data will be available shortly before the sale. We are looking forward to seeing you all soon!**

*"Kretschman Angus has been a client of ours since we put our shingle out in 2009 and we've been proud to be associated with them from day one. We have learned just as much from Kelby and Lacey about husbandry and genetic selection as we have anywhere. The advantage of serving many other clients who purchase Kretschman Angus bulls is we get to see them grow up to become some of the most masculine and moderately framed bulls in their batteries, not to mention their phenotypic and uniform influence on the calves."*
