Annual Production Sale

SATURDAY, FEBRUARY 27TH 2021

1 PM | BUFFALO LIVESTOCK AUCTION | BUFFALO, WY
SELLING 60 YEARLING BLACK ANGUS BULLS

Welcome!

Howdy Folks! Thank you for taking an interest in our 2021 production sale. 2020 was an interesting year indeed with widespread drought, fires and market uncertainty. Cattlemen and women all over the country faced many trials but we seem to persevere and land on our feet again. We credit this to so many with outstanding work ethic and we can only hope that our youth will embrace that quality and lead the next generation of Cattlemen and women into a prosperous future.

We are excited to offer you a set of bulls this year that have stood out from day one. Despite the drought conditions all Summer and Fall, their weaning weights were right where they should be. The average birth weight on this set of bulls is 84 lbs so several of them will be suitable for heifers. You can't beat natural muscle and volume all in a calving ease package! Our program continues to be about raising cattle that perform well on grass with no creep feed. These ladies have to make a living out in the hills with basic supplements but still raise a fabulous calf and breed back on time. We are sticklers about udder quality, foot structure and good dispositions. We wean these bulls in early September and immediately start them on a high roughage pellet to ensure a sufficient gain while not pushing them too hard. They also get a mineral supplement along with grass hay. This combination makes for a healthy bull with no gut problems.

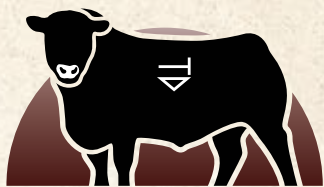

Our honesty is one of the most important guarantees we make when selling our bulls. We will not sell any bulls to you that are of poor quality or have not been properly fertility tested or had a thorough exam by a licensed veterinarian. Please feel free to call us any time. We would love for you to see these bulls before sale day. You can follow us on Facebook or on our website for updates and videos. We are looking forward to seeing you on sale day.
